#### 1. Qualitative Information on Quarterly Results

#### (1) Explanation About Operating Results

During the six months ended September 30, 2020, global economy environment remained severe due to the impact of the novel coronavirus infection. Economic activities gradually resumed after the state of emergency was lifted, and a recovery in economy is anticipated. Nevertheless, there has been no significant decline in the number of infected patients and the situation continues to be unpredictable.

The construction-related industry, which has strong relations to the Group, faced impacts such as discontinuation and postponement of work at construction sites and curbs on new investments reflecting concerns about the future following the government's declaration of the state of emergency.

In spite of such circumstances, sales increased at the Nikko Group as those of the Asphalt Plant-Related Business and Concrete Plant-Related Business in Japan grew, while overseas sales declined due to the impact of the spread of the novel coronavirus infection.

In the six months ended September 30, 2020, consolidated net sales increased 6.3% from a year earlier to 18,225 million yen. Consolidated operating income totaled 1,000 million yen, up 4.2% year-on-year, consolidated ordinary income totaled 1,588 million yen, up 53.5% year-on-year, and quarterly net income attributable to owners of parent reached 1,099 million yen, up 9.6% year-on-year. Operating income on sales declined 0.1 percentage points compared with the same period a year earlier to 5.5%. Consolidated new orders received in the six months under review increased 13.0% year-on-year to 19,036 million yen. This is attributable to the continued strong performances in Japan by the Asphalt Plant-Related Business and Concrete Plant-Related Business as well as a gradual recovery in orders in China.

Results by segment are as follows.

#### <Asphalt Plant-Related Business>

While overseas sales declined year on year due to the impact of the novel coronavirus pandemic, the products and maintenance business in Japan grew compared with the same period a year earlier. As a result, net sales of the business increased 9.9% to 9,527 million yen from the same period a year earlier. New orders received in the period under review increased compared with a year earlier, while order backlog declined year on year.

#### <Concrete Plant-Related Business>

Sales of both products and the maintenance business in Japan increased compared with the previous period. As a result, net sales of the business increased 7.6% to 4,918 million yen from the same period a year earlier. New orders received and order backlog in the period under review increased compared with a year earlier.

#### <Environment- and Conveyor-Related Business>

Net sales of the environmental products and conveyor products declined compared with a year earlier due to the impact of the novel coronavirus pandemic. As a result, net sales of the business declined 21.8% to 1,059 million yen from the same period a year earlier. New orders received and order backlog in the period under review increased compared with a year earlier.

#### <Other Business>

Net sales of temporary construction materials and mobile plant business increased compared with the same period a year earlier. As a result, net sales of the business increased 6.7% to 2,719 million yen from the same period a year earlier. New orders received in the period under review increased compared with a year earlier, while order backlog declined year on year.
